PETROCHEMICALS

For over 60yrs Good Work Co. has been a market leader in providing label printing solutions for both, the domestic & international packaging industry. Our suit of proven techniques, from design to labelling and packaging has provided printing solutions for a vast majority of fast moving consumer goods.

Good Work is a world class printing organisation that brings to the packaging environment, the highest level of professionalism, cutting - edge technologies, innovative design teams and deep care for our natural environment. We bring to the domestic & international markets design ideas and solutions at the most competitive prices with the highest standards of quality at every level.

At 'Good Work' we use our wealth of experience, our innovative teams and high-end technology to best meet our client specific needs. A simple example would be; the special techniques used when providing a client labelling, which must withstand varying pressures & temperatures without compromising on the unique and complex design of the label itself. Any kind of labelling, from oil containers to shampoo bottles- all require a customised, comprehensive approach. Our informed design times are constantly and successfully trouble shooting new challenges
