SPECIALITY

## SPECIALITY

In the world of packaging a constant amount of innovation is needed to attract, inform or even caution consumers. Some are not fortunate enough to be able to make their own decisions. Dependability for the smallest things wears one down.

We at GWC keep a keen eye on being able to innovate around the disabled to be able if not much then even a percent of convenience or comfort.

## BRaille LABEL

## SPECIALITY

Braille labels assist the visually impaired to obtain valuable safety information from product packaging. They make the simple things so much easier for the visually impaired. Braille labels are a way to reach out and provide your products to the visually impaired, we strongly feel we can help empower their independent decision making, and allow them to distinguish between required medication or whatever products we all depend on in our daily tasks.

## SPECIALITY

Aircraft decoration endure, high speeds , pressure variations , moisture and constant exposure to sun and water.

we develop special adhesives and special to coats that can withstand such strong variations and stand the test of time and pressure.
